

CANASALIN TRADING LTD

COMPANY PROFILE

CONSTRUCTION & GENERAL CONTRACTING
ENGINEERING & PROJECT MANAGEMENT
ELECTRICAL & MECHANICAL INSTALLATIONS
PLANT MAINTENRANCE
RENEWABLE ENERGY SOLUTIONS
EQUIPMENT IMPORT
MINERALS EXPORT

WELCOME TO OUR COMPANY

We provide integrated engineering and maintenance solutions across structural, mechanical, piping, plate work, and renewable energy sectors. In addition to our core services, we support global trade through the export of minerals and import of specialized equipment, enabling efficient supply chains for our clients.

Driven by a skilled management team, we are committed to innovation, safety, and excellence. Whether building new infrastructure, maintaining critical assets, or supporting international logistics, we deliver results with precision, reliability, and a future-focused mindset.

OUR PHILOSOPHY

INNOVATE, COLLABORATE, UPSKILL AND PROVIDE SOLUTIONS

01. Vision

To be one of the best firms in the construction environment with a number of experts in the engineering field to enable the firm to thrive amongst competitors. To upskill local labour to ensure business sustainability for long term growth.

02. Mission

To develop and implement solutions that are innovative, environmentally considerate and economically viable. In a manner that will incorporate and fulfill the social needs of the communities with our solutions will be serving

03. Goals

To be the top service provider locally, to upskill local labour force. To be a sustainable and profitable business

01

Key Activities

Our focus areas include:

- Structural, mechanical, piping, and plate work
- Renewable energy systems and Solutions
- Project execution and maintenance
- Mineral exports and equipment imports.

02

Geographical Location (Global Presence)

We serve the mining industry in the DRC Democratic Republic of Congo and Southern Africa. Our group also operates internationally, with a presence in the USA, Canada, India, South Africa, UK, UAE, China, and more.

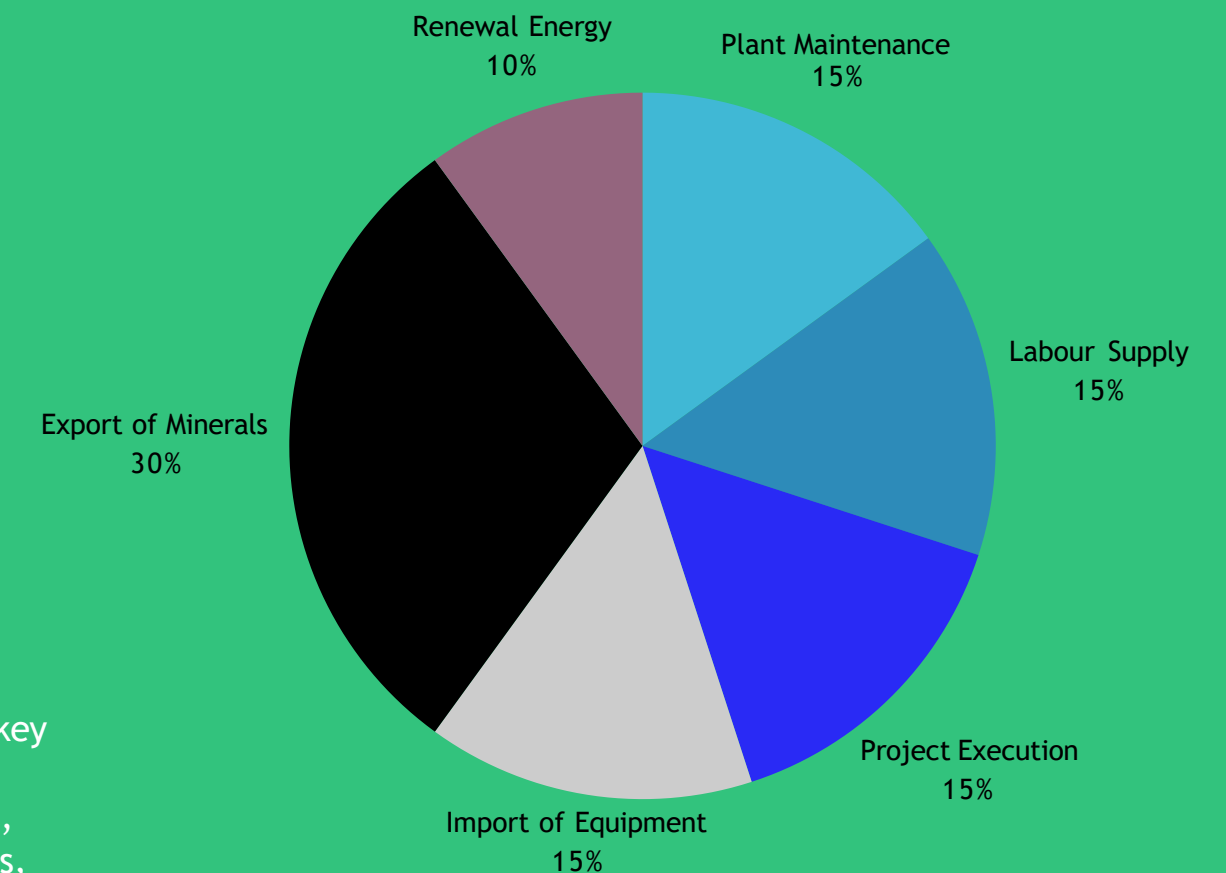

- HDPE-STEEL PIPING**
- STRUCTURAL PLATEWORK**
- CIVIL WORKS**
- LABOUR SUPPLY FOR PROJECTS & MAINTENAINCE**
- IMPORT & EXPORT**

KEY SERVICES

We offer multiple types of engineering solutions:

- ◆ Import of Equipment
- ◆ Export of Minerals
- ◆ Supply of Labor
- ◆ Refurbishment of Equipment
- ◆ Execution of Engineering Projects
- ◆ Supply of Equipment
- ◆ Renewable Energy Solutions
- ◆ Supply of fittings, Valves and Pumps
- ◆ In addition to the supply of labor, refurbishment of equipment, and execution of engineering projects, a key focus is the timely delivery of quality equipment and components. By providing reliable machinery, fittings, valves, and pumps, we help ensure smooth operations, enhance productivity, and contribute to the overall success of every project.

TYPES OF SERVICES

We offer multiple types of engineering services:

- Fabrication
- Labour hire
- Welding services
- Refurbishing services
- Minerals Export
- Project management
- E&I Projects and Maintenance
- Equipment Goods Import Services
- Supply of fittings, Valves and Pumps
- Structural, Piping and Tank building
- Renewal Energy Solutions

OUR EXPORT SERVICES INCLUDE

- Sourcing & Procurement - Access to reliable, high-quality mineral sources across the DRC.
- Logistics & Supply Chain Management - End-to-end delivery from mine site to international port:
 - Inland transport & consolidation
 - Export compliance & customs clearance
 - Freight forwarding
- Quality Assurance & Documentation - Certificates of Origin, traceability reports, and conflict-free certifications.
- Market Access - Direct access to verified buyers, smelters, and global markets.

MINERAL EXPORT DIVISION

Building on our proven track record in engineering and services within the DRC's mining sector, Canasalin Trading Ltd SAARL is proud to announce the expansion of our operations into Comprehensive Mineral Export Solutions. This strategic evolution leverages our operational infrastructure, deep-rooted relationships, and intimate knowledge of local mining dynamics to position Canasalin Trading Ltd SAARL as a trusted gateway between DRC mineral wealth and international markets.

We ethically source, verify, and export the following high-demand minerals

Minerals Supplied by Canasalin Trading Ltd SAARL

Lithium - Powering the global shift to electric vehicles and energy storage.

Cobalt - Central to battery technologies; responsibly sourced.

Copper - High-grade copper for power, construction, and electronics.

Tin - Used in electronics, soldering, and metal packaging.

Tantalum (Coltan) - Essential for capacitors in smartphones, laptops, and medical tech.

Gold - Responsibly mined gold for investment, jewelry, and tech industries.

Zinc & Lead - Industrial-grade materials for batteries, galvanization, and construction.

RENEWABLE ENERGY SOLUTIONS

POWERING A SUSTAINABLE FUTURE WITH CANASALIN TRADING LTD SAARL

At Canasalin Trading Ltd SAARL, we are proud to support the global shift toward cleaner energy by offering innovative and reliable renewable energy solutions. Our focus on solar and wind power allows us to help our clients reduce emissions, lower energy costs, and contribute to a more sustainable planet.

■ Solar Energy

We harness the sun's power to deliver customized solar energy systems designed for both residential and commercial needs. Our services include:

- Design and installation of solar panels
- Off-grid and hybrid solar solutions
- Solar farm development and EPC services
- Monitoring, maintenance, and optimization

■ Wind Energy

Our wind energy solutions are designed to maximize efficiency and long-term performance. We offer:

- Site feasibility studies and wind resource assessments
- Installation of small to utility-scale wind turbines
- Grid integration and storage solutions
- Ongoing technical support and servicing

Renewable Energy Solutions

WHY CHOOSE CANASALIN TRADING LTD SAARL

End-to-end project delivery - from concept to commissioning

Skilled engineering teams - across construction, energy, and maintenance

Renewable energy experts - delivering solar and wind solutions

Proven multi-sector experience - including infrastructure, mining, and trade

After-sales support - technical servicing and maintenance

- Strategic Advantages

Strong DRC presence - multinational team with local insight

Integrated solutions - engineering, logistics, and exports under one roof

Ethical operations - aligned with OECD, EITI & ITSCI standards

Trusted partnerships - with local and global networks

FUTURE PLANS

Offer new products and services

Our goal is to introduce outstanding new products and services within the engineering sector.

Training school for skills development

Our goal is to establish a training school focused on skill development.

Multiple branches for projects in separate regions

Our plan involves opening multiple branches for projects in different regions.

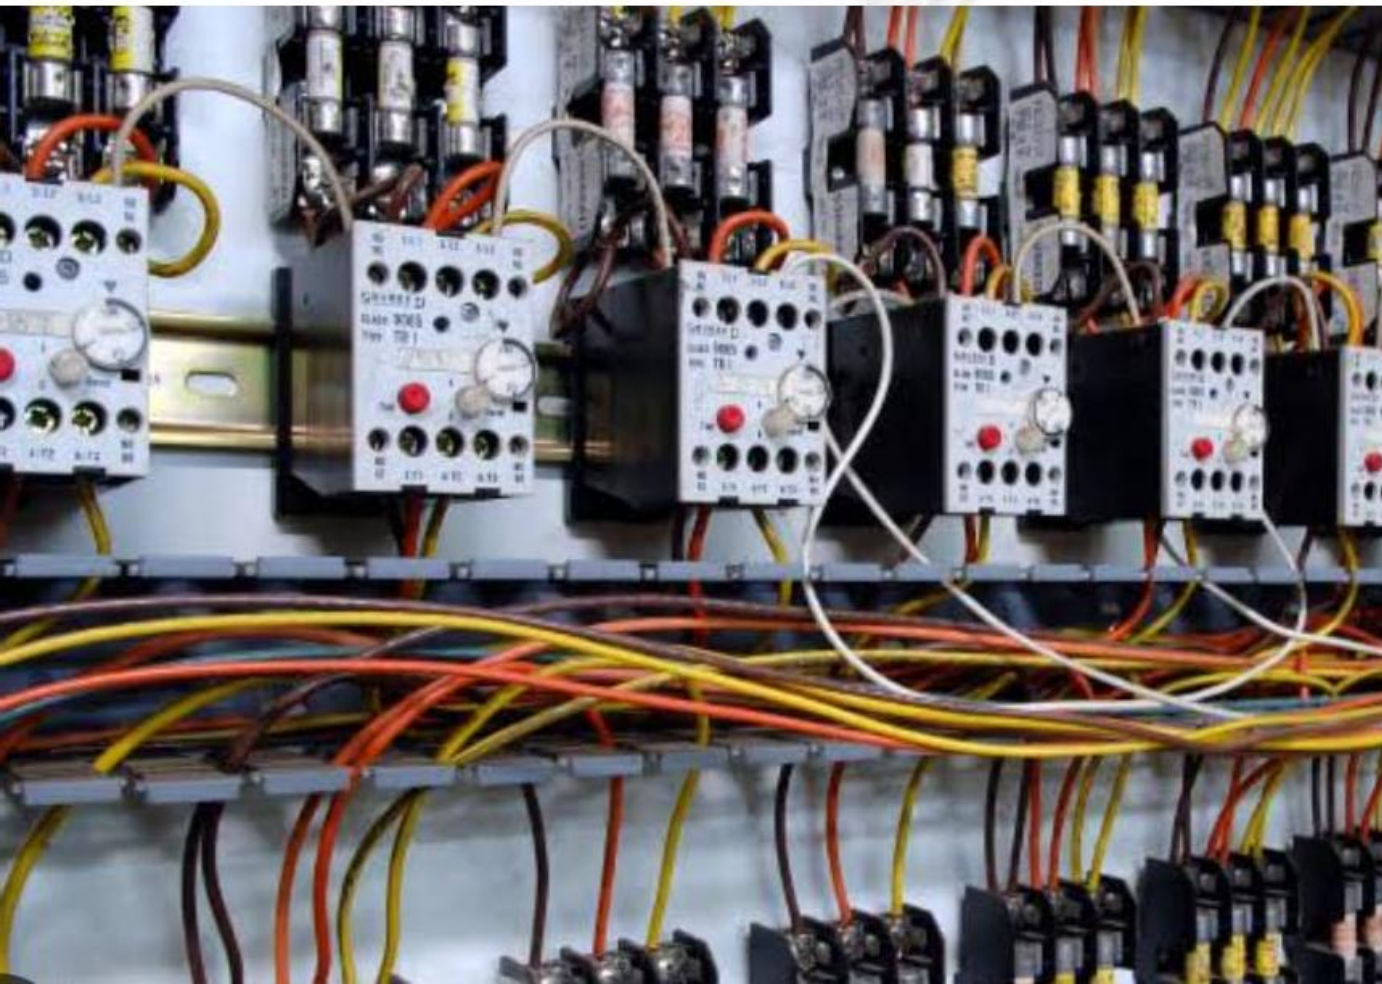

Platinum Service

We are going to provide exceptional platinum-level services.
